READY-MIX CONCRETE NOTICE OF INTENT

COVERAGE NO.: MSG11 0350
(Coverage number will be completed by MDEQ staff.)

Company Name: Deep South Precast, LLC Facility Name: Main facility

Contact Name and Position: Drew St. John - Owner/President

Contact Area Code and Phone Number: (601) 405 - 7557 Contact Email: dstjohn@deepsouthprecast.com

Primary SIC Code: (3272) Primary NAICS Code (6-digit): (327390)

Physical Site Address - Street: 1663 West Peace Street

City: Canton State: MS Zip: 39046 County: Madison

Mailing Address - Street: 1663 West Peace Street

City: Canton State: MS Zip: 39046

Plant Maximum Production Rate: 5.0 cubic yards/hr
Maximum production rate must be based on the manufacturer's maximum rated plant capacity on an hourly basis.

Will you own or operate a rock crusher at the site? Yes No
If a third party will own/operate a rock crusher at your site, mark "No."

Rock Crusher Type / Rated Cumulative Capacity: Fixed: _____ tons/hr Portable: _____ tons/hr N/A

Will you operate stationary fuel burning equipment (e.g., engines, heaters, etc.) at the site? Yes* No
**If you marked "Yes" complete and submit the attached Fuel Burning Equipment Form & Compliance Plan.*

Will wastewater from the process be discharged directly from the site? Yes No

Describe any wastewater treatment or indicate "None": Process water treated and reused in mixer. No site discharge
Plans and specifications for treatment must be attached.

Proposed discharge frequency: zero see attached treatment equip. Proposed discharge volume: ZERO gal/day

Provide the Latitude and Longitude of each wastewater outfall:
If no discharge, provide the coordinates of the plant entrance. Attach additional pages, if necessary.

Latitude: 32 deg 36 min 11.73 sec Longitude: 90 deg 4 min 35.06 sec

Nearest named receiving stream: Bear Creek

Is a SWPPP attached that meets the requirements of ACT5 of the RMCGP? Yes No

Is the SWPPP based on an Industry Generic SWPPP? Yes* No *(*Must be most recent version.)*

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. I further certify that the project continues as described in the original notice of intent. Also, I certify that I understand when coverage is terminated I am no longer authorized to emit regulated air emissions and discharge wastewater or storm water associated with industrial activity under this general permit. I understand that discharging pollutants associated with industrial activity to waters of the state without NPDES coverage is in violation of state law.

FUEL BURNING EQUIPMENT FORM & COMPLIANCE PLAN

CURRENT COVERAGE NO.: MSG11 _ _ _ _

(Coverage number is located at the bottom left corner of your previous Certificate of Coverage)

FUEL BURNING EQUIPMENT LIST

List all stationary fuel burning equipment used at the facility. **Do not include** mobile fuel burning equipment (e.g., trucks or forklifts, welding equipment), portable engines that are moved about the site (e.g., pressure washers, welders), or portable engines that will not remain on the site more than 12 months (e.g., temporary generators).

Equipment Description	Emergency Use Only? (Yes/No) ¹	Fuel Type	Max. Heat Input/ Power Output	Manufacturer	Manufactured Date or Model Year
<i>Example only:</i>					
<i>Engine for Generac generator</i>	<i>No</i>	<i>Diesel</i>	<i>578 hp</i>	<i>Perkins</i>	<i>2009</i>
<i>Heater for brick drying</i>	<i>No</i>	<i>Natural gas</i>	<i>6 MMBtu/hr</i>	<i>Sigma Thermal</i>	<i>2010</i>
None					

¹ Engines qualifying as "emergency" must meet the requirements of Condition L-6 in ACT 3 of the General Permit.

COMPLIANCE PLAN

As required by ACT 3, Condition L-7(3) of the General Permit, complete this section if you will have one or more **non-emergency** stationary internal combustion engines at your site.

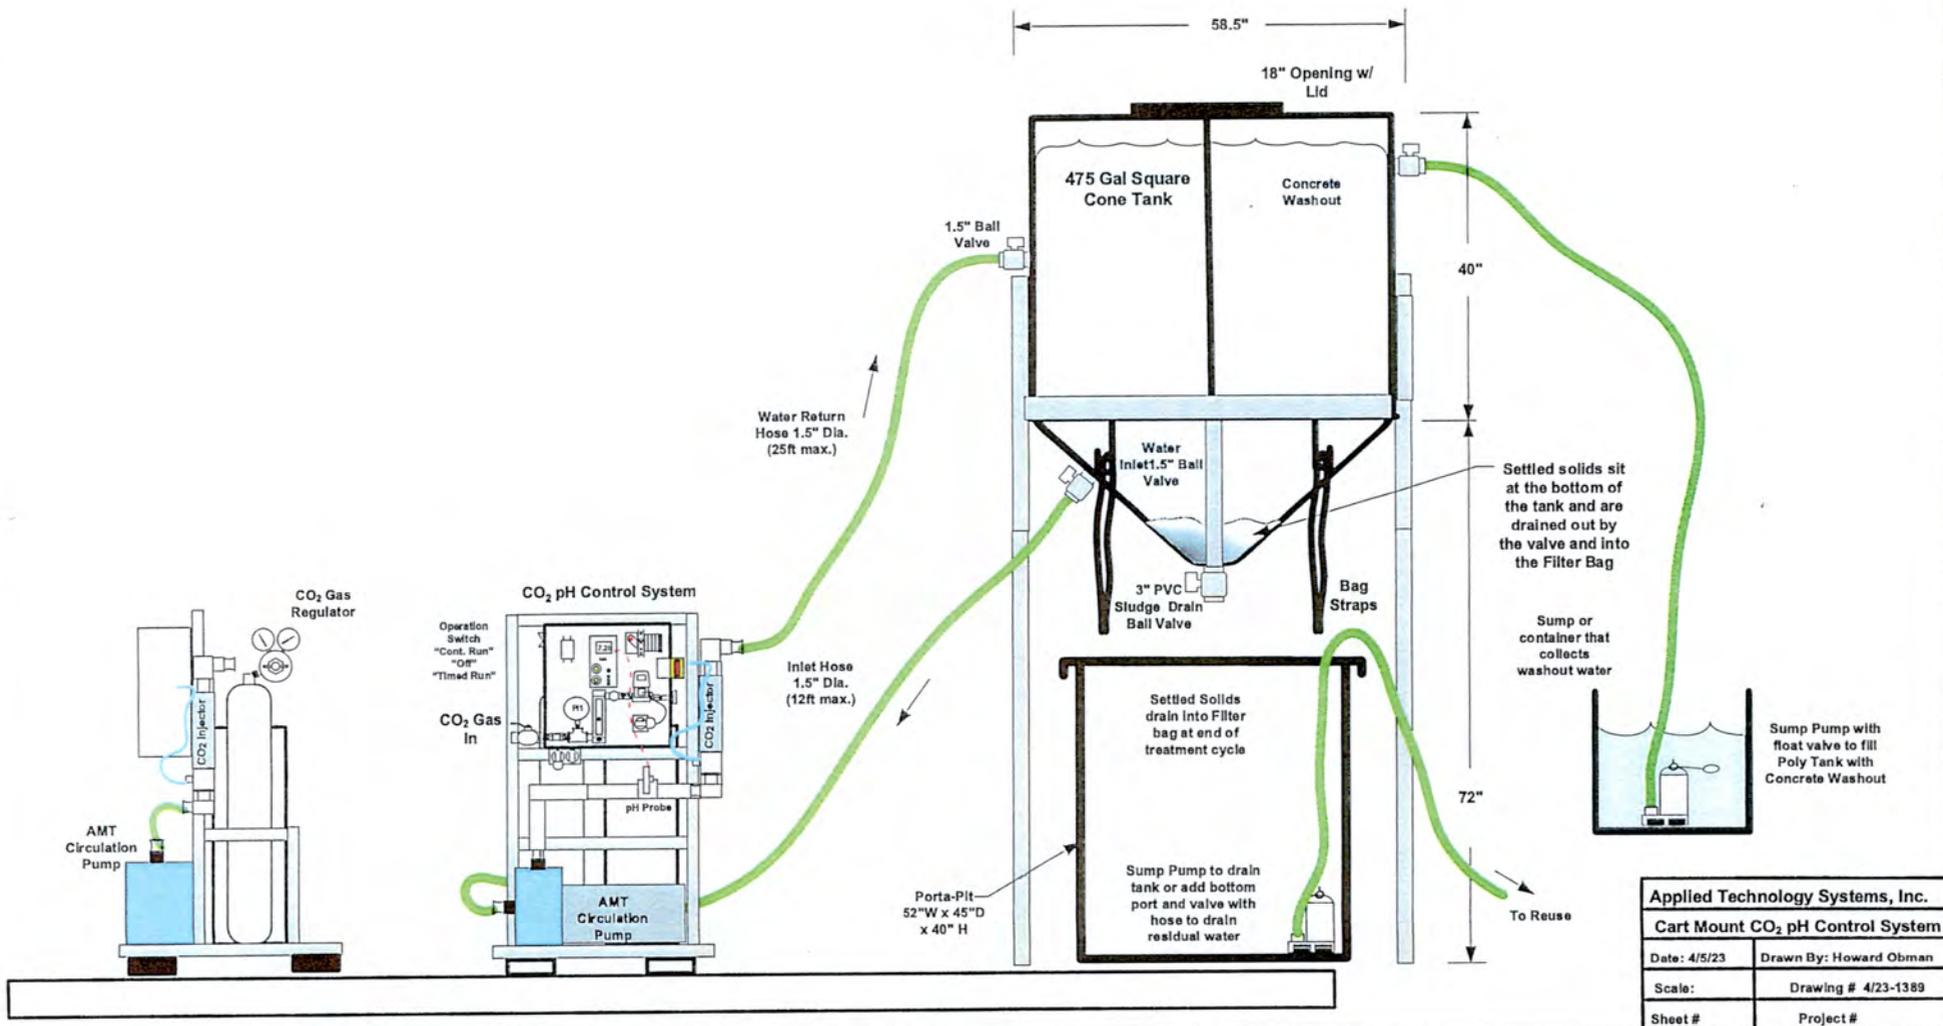

Equipment Description <i>(should match description from table above)</i>	Applicable federal standard ¹		Emission Standards ² (List all that apply)	Monitoring Requirements ² (List any testing, continuous monitoring and recordkeeping required)
	40 CFR 60, Subpart IIII	40 CFR 63, Subpart ZZZZ		
<i>Example: Engine for Generac generator</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<i>CO ≤ 49 ppmvd @15 % O₂</i>	<i>Conduct CO performance test every 8,760 hrs or 3 yrs whichever comes first; maintain oxidation catalyst so pressure does not change by more than 2" water and catalyst inlet temp. is between 450 – 1,350 °F</i>
None	┌	┌		
	┌	┌		
	┌	┌		

¹ Only mark one. If subject to 40 CFR 60, Subpart IIII, then you have no requirements under 40 CFR 63, Subpart ZZZZ per 40 CFR 63.6590(c)(1).

² EPA has developed a summary table of requirements for these rules at <https://www.epa.gov/stationary-engines/guidance-and-tools-implementing-stationary-engine-requirements>. For purposes of evaluating these requirements, your engine is considered a Non-Emergency Compression Ignition (CI) Internal Combustion Engine (ICE) located at an Area Source.

Submit signed form online at www.tn.gov/epd/rmccop or a hard copy to Water II Branch Manager, EPD, MDEQ, PO Box 2261, Jackson, MS 39225

CO₂ pH Control and Process Tank System to treat Concrete Washout

Applied Technology Systems, Inc.	
Cart Mount CO ₂ pH Control System	
Date: 4/5/23	Drawn By: Howard Obman
Scale:	Drawing # 4/23-1389
Sheet #	Project #

THE ATSI CO2 SYSTEM

Carbon Dioxide Systems for every application

We can provide a wide variety of system options depending on your specific application to neutralize concrete washout water. We have systems designed specifically for ready mix, precast, job site, hydrodemolition, potable and wastewater treatment. These systems are very affordable with a base system price of below \$10,000.

Better choice than strong liquid acids

Strong liquid acids like sulfuric and hydrochloric have a variety of issues including higher operating costs, easy to overshoot or undershoot the pH setpoint, dangerous to personnel and damaging to equipment. Any accidental acid spill may have to be reported. In addition, they can liberate and therefore increase heavy metals content in the washout water leading to possibly higher than acceptable discharge limits.

Small footprint and designed for outdoor service

The ATSI CO2 system has a compact design of approx 2 ft x 2 ft x 4 ft. The combination of the CO2 gas cylinder and system can fit into a very small area at the back end of the final pit. The total weight is about 85 lbs and can be easily mounted next to a pit. In addition, the small size makes it an ideal system for mounting on a trailer or pickup and used at various sites. The control panel is NEMA 4X and the system is designed to work outdoors.

Installation is quick, easy and minimal maintenance

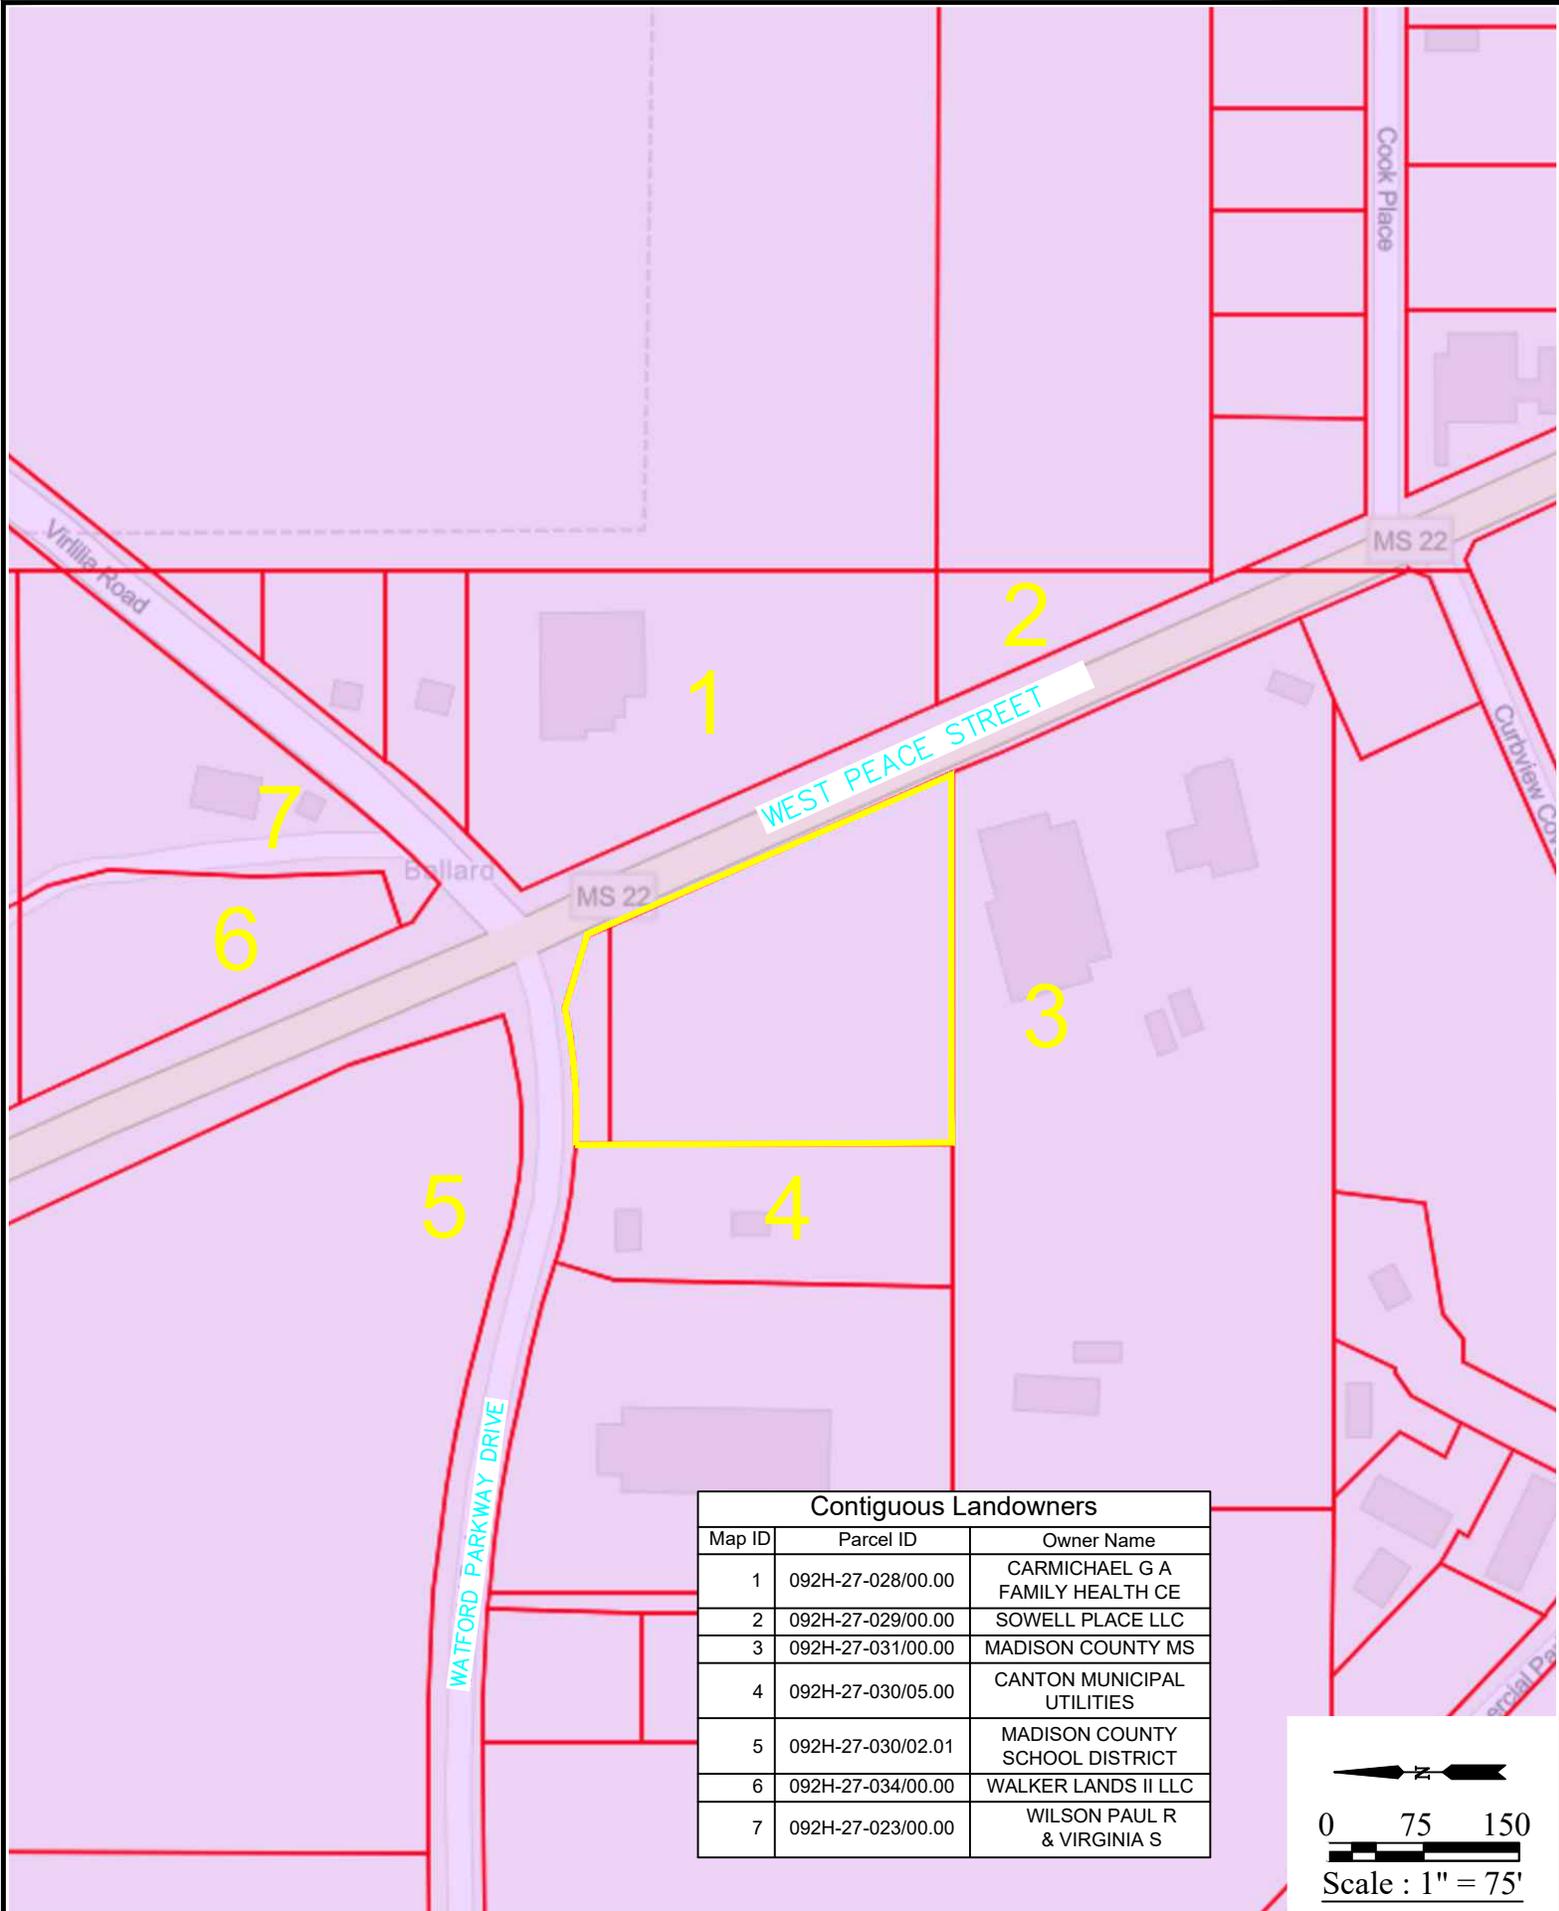

This system is placed next to the pit or tank to be treated. Connect 120 VAC power and a cylinder of CO2 and within a few minutes to a few hours a pit or tank can be pH adjusted for either reuse or disposal. Weekly maintenance on the system is less than 10 minutes for all but the most challenging processes. We make a simple system easy to operate and maintain.

Environmentally Friendly

Reducing the pH and making clear water are not the only benefits of treating with CO2 gas. Most cylinder CO2 is a captured waste gas. The reaction forming carbonates is mineralizing. Settling out the suspended solids in washout is sequestration. As a result, this process is an environmentally friendly. By not only cleaning the water but by capturing and mineralizing the CO2 gas.

Technical Support and Customer References

The systems are easy to install. However, not all pit systems and individual plant issues are the same. As a result, we can provide onsite technical support to optimize every application. We have resolved many customer washout and stormwater issues. Customer references are available upon request.

Contiguous Landowner Notification of a Ready-Mix Concrete Facility

(See ACT 2, Condition S-2 of General Permit for Notification Requirements)

Certified Mail No.: _____

Date mailed: _____

Company Name: _____
(as registered with the MS Secretary of State)

Coverage No.: MSG11 _____
(if currently permitted facility)

located at _____, _____, _____ County, MS
Physical Street Address City County

is proposing to:

_____ construct and operate a new ready-mix concrete facility.

_____ construct or modify air emission source(s) and is currently a synthetic minor facility or will become a synthetic minor facility afterwards.

_____ add additional process wastewater outfalls.

This letter is to provide you notification of the proposed project and to provide you an opportunity to comment regarding environmental concerns about the project. The Mississippi Department of Environmental Quality (MDEQ) only has legal authority to consider environmental issues specified in the applicable laws and regulations. MDEQ does not have legal authority to consider matters outside of its jurisdiction; thus, comments regarding zoning, impacts, or other non-environmental related comments should be directed to the local zoning and planning authorities.

If you do not have environmental comments regarding the proposed project, then no response is necessary, and the permitting process will continue. If you have environmental-related comments regarding the proposed project, please notify MDEQ in writing within thirty (30) days from the postmarked date of this notification or by the end of the MDEQ 10-day online notification period, whichever is later. The online notification of the project can be found at the following link: <https://www.mdeq.ms.gov/ensearch/general-permit-notice-of-intents>. When making written comments, please reference the Company Name and location using the information above and provide your contact phone number and address. If you would like to discuss concerns that you have regarding this project, please feel free to contact MDEQ at (601) 961-5171. Comments are to be mailed to the following address:

Chief, Environmental Permits Division
