**RE: Hydrostatic Test Notice of Intent
Kinder Morgan / TGP Heidelberg Lateral Project
Jasper County, Mississippi**

Dear Chief,

Kinder Morgan (KM) is submitting this Hydrostatic Test Notice of Intent (HTNOI) to the Mississippi Department of Environmental Quality (MDEQ), Office of Pollution Control for coverage under Hydrostatic Test General Permit MSG13 for discharges associated with hydrostatic testing during construction of the TGP Heidelberg Lateral (Project). KM is proposing to install a lateral pipeline along a segment of its existing Tennessee Gas Pipeline (TGP) system located in Jasper County, Mississippi. The Project includes the installation of approximately 1.58-miles of 20-inch diameter natural gas pipeline lateral from the discharge of TGP Station 538 (Heidelberg Compressor Station) to the inlet of the existing Transcontinental Gas Pipe Line Company, LLC Heidelberg Meter Station.

A request for water withdrawal authorization has been submitted to the Office of Land and Water Resources. The Project will be completed in compliance with Section 404 and Section 401 regulations under U.S. Army Corps of Engineers Nationwide Permit 12 and the Water Quality Certification issued by MDEQ for Nationwide Permit 12. KM will comply with all General Permit MSG13 conditions and notification requirements. Records and results of monitoring activities required by this permit will be provided to MDEQ. Hydrostatic test water will be discharged into a well-vegetated upland area within the Project construction workspace. An energy-dissipating device will be utilized to slow the flow of water and aid in preventing erosion. Water will not be discharged directly into streams or other surface waters. Should you have any questions or comments regarding this HTNOI, please feel free to contact me by email at tim_mckellar@kindermorgan.com or by phone at (205) 907-4843.

Respectfully submitted,
