LARGE CONSTRUCTION NOTICE OF INTENT (LCNOI) FOR COVERAGE UNDER THE LARGE CONSTRUCTION STORM WATER GENERAL NPDES PERMIT

INSTRUCTIONS

The Large Construction Notice of Intent (LCNOI) is for coverage under the Large Construction General Permit for land disturbing activities of five (5) acres or greater; or for land disturbing activities, which are part of a larger common plan of development or sale that are initially less than five (5) acres but will ultimately disturb five (5) or more acres. Applicant must be the owner or operator. For construction activities, the operator is typically the prime contractor. The owner(s) of the property and the prime contractor associated with regulated construction activity on the property have joint and severable responsibility for compliance with the Large Construction Storm Water General Permit MSR10.

If the company seeking coverage is a corporation, a limited liability company, a partnership, or a business trust, attach proof of its registration with the Mississippi Secretary of State and/or its Certificate of Good Standing. This registration or Certificate of Good Standing must be dated within twelve (12) months of the date of the submittal of this coverage form. Coverage will be issued in the company name as it is registered with the Mississippi Secretary of State.

Completed LCNOIs should be filed at least thirty (30) days prior to the commencement of construction. Discharge of storm water from large construction activities without written notification of coverage is a violation of state law.

Submittals with this LCNOI must include:

- A site-specific Storm Water Pollution Prevention Plan (SWPPP) developed in accordance with ACT5 of the General Permit
- A detailed site-specific scaled drawing showing the property layout and the features outlined in ACT5 of the General Permit
- A United States Geological Survey (USGS) quadrangle map or photocopy, extending at least one-half mile beyond the facility property boundaries with the site location and outfalls outlined or highlighted. The name of the quadrangle map must be shown on all copies. Quadrangle maps can be obtained from the MDEQ, Office of Geology at 601-961-5523.

Additional submittals may include the following, if applicable:

- Appropriate Section 404 documentation from U.S. Army Corps of Engineers
- Appropriate documentation concerning future disposal of sanitary sewage and sewage collection system construction
- Appropriate documentation from the MDEQ Office of Land & Water concerning dam construction and low flow requirements
- Approval from County Utility Authority in Hancock, Harrison, Jackson, Pearl River and Stone Counties
- Antidegradation report for disturbance within Waters of the State

ALL QUESTIONS MUST BE ANSWERED (Answer "NA" if the question is not applicable)

DESCRIPTION OF CONSTRUCTION ACTIVITY: Construction of New Industrial Plant

PROPOSED DESCRIPTION OF PROPERTY USE AFTER CONSTRUCTION HAS BEEN COMPLETED:
Industrial Manufacturing

SIC Code: 3 7 3 2 NAICS Code _____

NEAREST NAMED RECEIVING STREAM: Halfway Creek to Tombigbee Waterway/Tombigbee River

IS RECEIVING STREAM ON MISSISSIPPI'S 303(d) LIST OF IMPAIRED WATER BODIES? (The 303(d) list of impaired waters and TMDL stream segments may be found on MDEQ's web site: http://www.deq.state.ms.us/MDEQ.nsf/page/TWB_Total_Maximum_Daily_Load_Section) YES NO

HAS A TMDL BEEN ESTABLISHED FOR THE RECEIVING STREAM SEGMENT? YES NO

FOR WHICH POLLUTANT: _____

ARE THERE RECREATIONAL STREAMS, PRIVATE/PUBLIC PONDS OR LAKES WITHIN ½ MILE DOWNSTREAM OF PROJECT BOUNDRY THAT MAY BE IMPACTED BY THE CONSTRUCTION ACTIVITY? YES NO

EXISTING DATA DESCRIBING THE SOIL (for linear projects please describe in SWPPP):
Sandy, loam soil

WILL FLOCCULANTS BE USED TO TREAT TURBIDITY IN STORM WATER? YES NO

IF YES, INDICATE THE TYPE OF FLOCCULANT. ANIONIC POLYACRYLIMIDE (PAM)
 OTHER _____

IF YES, DOES THE SWPPP DESCRIBE THE METHOD OF INTRODUCTION, THE LOCATION OF INTRODUCTION AND THE LOCATION OF WHERE FLOCCULATED MATERIAL WILL SETTLE?

IS A SDS SHEET INCLUDED FOR THE FLOCCULATE? YES NO

WILL THERE BE A 50 FT BUFFER BETWEEN THE PROJECT DISTURBANCE AND THE WATERS OF THE STATE? YES NO

IF NOT, PROVIDE EQUIVALENT CONTROL MEASURES IN THE SWPPP.

¹Acreage for subdivision development includes areas disturbed by construction of roads, utilities and drainage. Additionally, a housesite of at least 10,000 ft² per lot (entire lot, if smaller) shall be included in calculating acreage disturbed.

DOCUMENTATION OF COMPLIANCE WITH OTHER REGULATIONS/REQUIREMENTS
 COVERAGE UNDER THIS PERMIT WILL NOT BE GRANTED UNTIL ALL OTHER REQUIRED
 MDEQ PERMITS AND APPROVALS ARE SATISFACTORILY ADDRESSED

IS LCNOI FOR A FACILITY THAT WILL REQUIRE OTHER PERMITS?

YES NO

IF YES, CHECK ALL THAT APPLY: AIR HAZARDOUS WASTE PRETREATMENT
 WATER STATE OPERATING INDIVIDUAL NPDES OTHER: _____

IS THE PROJECT REROUTING, FILLING OR CROSSING A WATER CONVEYANCE OF ANY KIND? (If yes, contact the U.S. Army Corps of Engineers' Regulatory Branch for permitting requirements.) YES NO

IF THE PROJECT REQUIRES A CORPS OF ENGINEER SECTION 404 PERMIT, PROVIDE APPROPRIATE DOCUMENTATION THAT:

- The project has been approved by individual permit, or
- The work will be covered by a nationwide permit and NO NOTIFICATION to the Corps is required, or
- The work will be covered by a nationwide or general permit and NOTIFICATION to the Corps is required

IS THE PROJECT REROUTING, FILLING OR CROSSING A STATE WATER CONVEYANCE OF ANY KIND? (If yes, please provide an antidegradation report.) YES NO

IS A LAKE REQUIRING THE CONSTRUCTION OF A DAM BEING PROPOSED? (If yes, provide appropriate approval documentation from MDEQ Office of Land and Water, Dam Safety.) YES NO

IF THE PROJECT IS A SUBDIVISION OR A COMMERCIAL DEVELOPMENT, HOW WILL SANITARY SEWAGE BE DISPOSED? Check one of the following and attach the pertinent documents.

- Existing Municipal or Commercial System. Please attach plans and specifications for the collection system and the associated "Information Regarding Proposed Wastewater Projects" form or approval from County Utility Authority in Hancock, Harrison, Jackson, Pearl River and Stone Counties. If the plans and specifications can not be provided at the time of LCNOI submittal, MDEQ will accept written acknowledgement from official(s) responsible for wastewater collection and treatment that the flows generated from the proposed project can and will be transported and treated properly. The letter must include the estimated flow.
- Collection and Treatment System will be Constructed. Please attach a copy of the cover of the NPDES discharge permit from MDEQ or indicate the date the application was submitted to MDEQ (Date: _____.)
- Individual Onsite Wastewater Disposal Systems for Subdivisions Less than 35 Lots. Please attach a copy of the Letter of General Acceptance from the Mississippi State Department of Health or certification from a registered professional engineer that the platted lots should support individual onsite wastewater disposal systems.
- Individual Onsite Wastewater Disposal Systems for Subdivisions Greater than 35 Lots. A determination of the feasibility of installing a central sewage collection and treatment system must be made by MDEQ. A copy of the response from MDEQ concerning the feasibility study must be attached. If a central collection and wastewater system is not feasible, then please attach a copy of the Letter of General Acceptance from the State Department of Health or certification from a registered professional engineer that the platted lots should support individual onsite wastewater disposal systems.

INDICATE ANY LOCAL STORM WATER ORDINANCE (I.E. MS4) WITH WHICH THE PROJECT MUST COMPLY:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Appendices

- A. Mississippi Department of Environmental Notice of Intent Storm Water Permit Form (LCNOI)
- B. Site Maps (Topo, Drainage Map, Emergency Equipment Map)
- C. List of Emergency Key Contacts
- D. Inspection Forms

1.0 Introduction

The Large Construction Storm Water Pollution Prevention Plan (SWPPP) has been developed for Avid Boats, LLC Amory, Mississippi in connection with new industrial facility being constructed at 51841 HWY 25, Aberdeen in Monroe County, Mississippi. The above referenced entity will begin construction of the primary facility with completion planned for Q4 2024. During this time Avid Boats, LLC along with the general contractor (Pearson Construction, LLC) will maintain the property in accordance with MDEQ stormwater management best practices to control, minimize, and resolve any potential impacts to storm water erosion with the potential to affect natural vegetation, wetlands, or water draining systems.

The SWPPP has been designed to achieve two (2) main objectives:

1. Identify potential sources of storm water runoff and erosion control
2. Describe methods the facility will utilize to maintain compliance and reduce the amount of pollutants carried in the discharging storm water.

A copy of the Notice of Intent information is being submitted to request coverage under the State's General Permit is enclosed in Appendix A.

2.0 Storm Water Controls

The following controls are have been identified and implemented to control and reduce storm water impacts during the construction project at the above referenced location as required in the Large Construction General Permits. The controls include

1. Sediment fencing in topography with significant slope
2. Wheat straw applications for ditches and drainage flow areas
3. Secondary containment for fueling operations if left on-site
4. Re-vegetation of areas post land contouring
5. Established construction entrances to limit natural ground disturbances

3.0 Implementation Schedule

The following schedule of implementation is planned per the planning, construction, and completion of the industrial activity for the location referenced above.

- General Contractor Selection and Project Award - October 2023
- LCNOI, construction entrance, erosion controls established – December 2023
- Construction commencement – January 2024
- Construction completion – Q4 2024
- LC Storm Water Permit termination submitted – Q4 2024
- Baseline Storm Water Permit application submitted – Q3 2024

4.0 Inspection & Monitoring Schedule

Avid Boats, LLC will be responsible for implementing a rigorous visual inspection schedule during the construction phased utilizing a multifaceted approach to ensure minimal storm water runoff impacts from erosion and sediment collection. The schedule will include a general contractor briefing of the requirements and erosion protection techniques, weekly site inspections, and pre/post storm event inspections.

4.1 Responsible Party

Avid Boats, LLC will have the responsibility to ensure all requirements under the MDEQ Large Construction general permit is maintained during the construction process. The general contractor shall ensure these requirements are properly followed along with any deviations, impacts, or breaches are reported to site ownership immediately.

4.2 Visual Inspection

The location shall utilized the attached inspection form to document the weekly visual inspections during the construction phases. In addition, a signed training roster shall accompany this to verify the general contractor and his/her employees are aware of these storm water requirements.

5.0 Best Management Practices

The property ownership along with construction general contractor shall ensure the following list of best management practices are implemented and maintained during the various construction phases minimizing natural disturbance impacts.

- Sediment fencing
- Secondary containment
- Closed containers
- Utilization of construction entrances
- Waste collection hoppers for general debris, and trash
- Use of hazardous materials are minimized, and removed from property when not in use
- Visual inspection of sensitive vegetation, low-high slope topography areas
- Enforcement of SWPP requirements

6.0 Emergency & Key Contacts List

- Avid Boats, LLC
Brian Sullivan
601-597-2023
- Pearson Construction LLC
662-454-3100

6.1 Property Owner

Avid Boats, LLC
504 Waterway Dr
Amory, MS 38821

Responsible Official: Phillip Faulkner

6.2 General Contractor

Pearson Construction
29 Hargett Road
Golden, MS 38847

6.3 MDEQ Storm Water Permit Branch

MDEQ Carrie Barefoot 601- 961- 5249

7.0 Municipal Sewer & Illicit Connection

The SWPP shall be evaluated annual for any revisions or changes to the facility, personnel, operations or other noted changes. If a change is noted the plan will be revised and redistributed as appropriate. Upon completion of construction Avid Boats, LLC will submit request to terminate the Large Construction Storm Water NOI, and apply for coverage under the MS Baseline Storm Water permit along with SWPP and Illicit Connection Certification.

8.0 Operating Permits

The plan administrator (Legacy Boats) shall ensure all inspection records (monthly, annually, etc) are kept up to date as well as the site Storm Water Pollution Prevention Plan. The administrator shall also ensure that the site operator re-certifies that no "Non" Storm Water Discharges have occurred every five years in conjunction with permit renewal process.
