LARGE CONSTRUCTION STORM WATER GENERAL PERMIT MSR10
GENERAL NPDES COVERAGE NO. MSR10 5 5 9 4

INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Large Construction General Permit. This form must be completed and returned to the address printed at the bottom of the back page of this form within 30 days of the date of the Letter of Instruction for Re-Coverage.

The signatory of this form must be the owner or operator (prime contractor) who is the current coverage recipient (rather than the project manager or environmental consultant).

Amendments to the Storm Water Pollution Prevention Plan (SWPPP) are required to be attached if the plan is not current or is ineffective in controlling storm water pollutants. SWPPP amendments with the sole intent of incorporating new permit conditions do not need to be submitted to MDEQ for review and/or approval.

If the project is complete and final stabilization has been achieved, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Large Construction Forms Package. Projects that continue to discharge storm water associated with construction activity without applicable permit coverage are in violation of state law.

Do not submit this form if submitting a Request for Termination (RFT) Form.

ALL INFORMATION REQUESTS MUST BE ANSWERED (Answer "NA" if not applicable).

**SWPPP AMENDMENT FOR RECOVERAGE PACKAGE
LARGE CONSTRUCTION SWPPP GENERAL PERMIT (MSR10)
MOSELLE REPOWER PROJECT**

PURPOSE:

The Permit Board on Environmental Quality reissued the Large Construction Storm Water General Permit (MSR10) for construction activities on January 11, 2011. This general permit authorizes the discharge of storm water from construction sites that disturb five (5) or more acres by clearing, grading, excavating, or other land disturbing activities. This permit replaces the previous general permit that expired on May 31, 2010 and was administratively extended by MDEQ. The permit is reissued for a five-year period that will end on December 31, 2015. Coverage recipients wishing to be covered under the reissued general permit must submit a Re-coverage Form within 30-days of the date of the Letter of Instruction that will be mailed to active coverage holders. All construction projects that currently have Large Construction General Permit coverage should receive a Re-coverage Package containing the Letter of Instruction, an Addendum summarizing significant permit changes, and the Re-coverage Form. The Letter of Instruction will be dated January 21, 2011.

RESPONSE:

South Mississippi Electric Power Association received the SMEPA Moselle Re-Power Project Letter of Instruction via email on March 24, 2011. The Re-Coverage Form Instructions on Page 1 of 2 do not require submittal of the SWPPP amendments for the sole intent of incorporating the new permit conditions. However, the Re-Coverage Form on Page 2 of 2 does require the SWPPP to be in compliance with five specific conditions in order to receive re-coverage. In order to meet these two of the five specific conditions on Page 2 of 2, this amendment was drafted and will be added to the SMEPA Moselle Re-Power Project SWPPP and any applicable copies.

ACTION:

4. DOES SWPPP PROHIBIT THE DISCHARGES LISTED IN ACT2, T-3 (3) OF THE PERMIT?
 - Page 4-1(a) will be added to SWPPP detailing the requirements of ACT2, T-3 (3)

5. DOES THE SWPPP REQUIRE VEGETATIVE PRACTICES TO BEGIN WITHIN 7 DAYS WHEN A DISTURBED AREA WILL BE LEFT FOR 14 DAYS (ACT5, T-4 (1)), INSTEAD OF 30 DAYS AS REQUIRED BY THE PREVIOUS PERMIT?
 - Page 3-3(a) will be added to SWPPP detailing the requirements of ACT5, T-4 (1)

Vegetative Practices shall be designed to preserve existing vegetation where feasible and initiate vegetative stabilization measures after land disturbing activities. Such practices may include, but not limited to, temporary seeding, permanent seeding, mulching, sod stabilization, vegetative buffer strips, tree protection and topsoil preservation.

Soil stabilization-vegetative stabilization measures must be initiated whenever any clearing, grading, excavating or other land disturbing activities have temporarily or permanently ceased on any portion of the site and will not resume for a period of fourteen (14) days or more. The appropriate temporary or permanent vegetative practices shall be implemented with seven (7) calendar days.
