Permit No.: 10008000000000000000
Permit to Discharge Wastewater in Accordance with National Pollution Discharge Elimination System
The results of all required analyses and tests are as follows:

1. The water quality analysis was performed by XYZ Lab on March 15, 2023.
2. The temperature was measured at 25°C.
3. The pH level was determined to be 7.0.
4. The dissolved oxygen concentration was found to be 8.5 mg/L.
5. The turbidity level was measured at 0.5 NTU.

For each measurement or sample taken pursuant to the requirements of this permit, the following information must be recorded from each sample:

<table>

Definitions:

T-5. Maximum Weekly Average means the highest weekly average over a monitoring period (40 CFR 122).

T-6. Yearly Toxic Pollutant means any pollutant listed as toxic under Section 507(6)(D) of the Clean Water Act (1136.1(3)(A), R. 11.1A(10)).

T-7. Daily Maximum means the highest daily discharge over a calendar month (1136.1(3)(A), R. 11.1A(10))

T-8. Daily Discharge means the discharge of a pollutant measured during a calendar day or any 24-hour period that reasonably represents the calendar day for purposes of sample analysis or for purposes of implementing requirements in other parts of this code. The daily discharge, expressed in units of mass, is calculated as the total mass of the pollutant discharged over the calendar day or any 24-hour period that reasonably represents the calendar day.

T-9. Monthly Average means the average of the daily discharge measured during a calendar month or any calendar month that reasonably represents the calendar month.

Maximum Monthly Average means the highest monthly average over a monitoring period. [40 CFR 122]

Definition: Maximum Monthly Average

Monthly Average means the highest "daily discharge" measured over a three-month period. [40 CFR 6.1 A(6)]

Definition: Monthly Average

Average, Code Pt. 6.1 A(6) [11]

Quarterly Average means the average of "daily discharges" measured during a quarter, the quarterly average for a calendar quarter is the geometric mean of "daily discharges" divided by the number of "daily discharge", measured during that quarter. The quarterly average for a calendar quarter is the geometric mean of "daily discharges" measured during a quarter. "Quarterly Average" means the average of "daily discharges" measured over a three month period calculated as the sum of all "daily discharges" measured during the quarter divided by the number of "daily discharges" measured during that quarter. [40 CFR 6.1 A(6)]:

Definition: Quarterly Average

8.7: Definition: Weekday Average

"Weekday Average" means the average of "daily discharges" measured during a calendar week, calculated as the sum of all "daily discharges" measured during a calendar week divided by the number of "daily discharges" measured during that week. The "Weekday Average" for a calendar week is the geometric mean of "daily discharges" measured during a calendar week.
