

## State of Mississippi

### WATER POLLUTION CONTROL PERMIT

To Operate a Wastewater Disposal System with No Discharge

### THIS CERTIFIES

7 Lakes RV Park and Campground LLC

6001 Highway 76

Golden, MS

Itawamba County

has been granted permission to operate a wastewater disposal system in accordance with the limitations and conditions set forth in this permit. This permit is issued in accordance with the provisions of the Mississippi Water Pollution Control Law (Section 49-17-1 et seq., Mississippi Code of 1972), and the regulations and standards adopted and promulgated thereunder.

**Mississippi Environmental Quality Permit Board**

A blue ink signature, likely of the board member, written in a cursive style.

### Limitation Requirements:

| Condition No. | Parameter | Condition                                                                                                                                                                                                                                                                                                                                                                                                                      |
|---------------|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| L-1           |           | Permit Actions<br><br>The permit may be modified, revoked and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a modification of planned changes or anticipated noncompliance, does not stay any permit condition. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1. 1.5.C(5)]                                                 |
| L-2           |           | No permit for the construction or operation of a wastewater treatment facility shall be issued unless the applicant can demonstrate to the satisfaction of the Permit Board that a qualified operator will be made available to operate and maintain the facility. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1. 1.1.C(1)(c)]                                                                                                  |
| L-3           |           | The permittee shall provide written notification to the Mississippi Commission on Environmental Quality no later than thirty (30) days after the loss of the permittee's certified operator. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1.]                                                                                                                                                                                    |
| L-4           |           | Failure to provide adequate treatment leading to nuisance conditions or other operational failures, as determined by the Mississippi Department of Environmental Quality (MDEQ), may be cause for cause for permit revocation. If the permit is revoked, then the operation of the facility must cease until proper operational conditions have been met as determined by MDEQ. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1.] |

### Submittal/Action Requirements:

| Condition No. | Condition                                                                                                                                                                                      |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| S-1           | The Permittee shall submit analytical results on a monthly Discharge Monitoring Report (DMR): Due monthly, by the 28th of the subsequent month. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1.] |

|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| T-1           | The wastewater treatment and disposal system for this project must protect water quality. This permit is subject to modification if future events, monitoring results, or other information indicates that surface water quality is being adversely affected. This permit may be modified to require monitoring of surface water if needed to ensure that water quality is being protected. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1.]                                                                                                                                      |
| T-2           | The Office of Pollution Control (OPC) must concur with required engineering plans and specifications for the on-site disposal system prior to the commencement of construction. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1.]                                                                                                                                                                                                                                                                                                                                                  |
| T-3           | The on-site disposal system must be installed in accordance with the Department of Health standards by a person licensed by the Department of Health or a registered engineer. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1.]                                                                                                                                                                                                                                                                                                                                                   |
| T-4           | Facility Expansion and/or Modification<br><br>Any expansion or modification resulting in increased wastewater flow and/or strength must receive prior approval of system expansion and a permit modification from the Environmental Quality Permit Board. Prior approval from OPC must be obtained before making any alterations to the approved disposal system. [11 Miss. Admin. Code Pt. 6, R. 1.1.4.A(14).]                                                                                                                                                                 |
| T-5           | No Discharge of Wastewater to Surface Water<br><br>There shall be no discharge of wastewater to waters of the State, as defined in the Mississippi Water Pollution Control Law, 49-17-5(f), except as provided in the bypassing condition in this permit. [11 Miss. Admin. Code Pt. 6, R. 1.1.1.B.]                                                                                                                                                                                                                                                                             |
| T-6           | Bypassing<br><br>Any diversion from or bypass of the on-site disposal system is prohibited, except where unavoidable to prevent loss of life or severe property damage. The permittee shall notify the Mississippi Environmental Quality Permit Board in writing of each such diversion or bypass in advance where practicable but in any case, within 72 hours of the diversion or bypass, and shall submit to the permit Board a plan to prevent recurrence of the diversion or bypass within thirty (30) days of the incident. [11 Miss. Admin. Code Pt. 6, R. 1.1.4.A(20).] |

| T-15          | <p>Representative Sampling</p> <p>Samples and measurements taken as required herein shall be representative of the volume and nature of the monitored wastewater. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1. 1.4.A(28)(e)]</p>                                                                                                                                                                                                                                                                                                                                                                                           |
| T-16          | <p>Test Procedures</p> <p>Test procedures for the analysis of pollutants shall include those set forth in 40 CFR 136 or alternative procedures approved and/or promulgated by EPA. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1. 1.4.A(30)]</p>                                                                                                                                                                                                                                                                                                                                                                             |
| T-17          | <p>Records Retention</p> <p>All records and results of monitoring activities required by this permit, including calibration and maintenance records, shall be retained by the permittee for a minimum of three (3) years, unless otherwise required or extended by the Permit Board, copies of which shall be furnished to the Department upon request. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1. 1.4.A(29)(a)]</p>                                                                                                                                                                                                     |
| T-18          | <p>Falsifying Reports</p> <p>Any permittee who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required by the Permit Board to be maintained as a condition in a permit, or who alters or falsifies the results obtained by such devices or methods and/or any written report required by or in response to a permit condition, shall be deemed to have violated a permit condition and shall be subject to the penalties provided for a violation of a permit condition pursuant to Section 49-17-43 of the Code. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1. 1.4.A(29)(d)]</p> |
| T-19          | <p>Duty to Comply</p> <p>The permittee must comply with all conditions of this permit. Any permit noncompliance constitutes a violation of the Clean Water Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or denial of a permit renewal application. [11 Miss. Admin. Code Pt. 6, Ch. 1, Subch. 1. 1.4.A(2)]</p>                                                                                                                                                                                                                                            |
