# INDUSTRIAL STORMWATER GENERAL PERMIT RE-COVERAGE FORM

FOR COVERAGE UNDER MISSISSIPPI'S REISSUED  
INDUSTRIAL STORMWATER GENERAL PERMIT MSR00  
GENERAL NPDES COVERAGE NO. MSR00 0376 \_\_ \_\_

## INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Industrial Stormwater General Permit. This form must be completed and returned to the address printed at the bottom of page 2.

The signatory of this form must be the owner or operator who is the current coverage recipient (rather than the plant/site manager or environmental consultant). The coverage recipient is responsible for permit compliance.

Amendments to the Storm Water Pollution Prevention Plan (SWPPP) are required to be attached if the plan is not current or is ineffective in controlling storm water pollutants.

If the facility is out of business or no longer a regulated facility, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Industrial Stormwater Forms Package. Facilities that continue to discharge wastewater without applicable permit coverage are in violation of state law.

Do not submit this form if submitting a "Request for Termination" (RFT).

Do not submit this form if submitting a "No Exposure Certification."

**ALL INFORMATION MUST BE COMPLETED** (Enter "NA" if not applicable).

## COVERAGE RECIPIENT INFORMATION

CONTACT NAME & POSITION: Shane Swygart, Environmental Manager

EMAIL ADDRESS: shane.swygart@omnisource.com

COMPANY NAME: OmniSource, LLC

STREET OR P.O. BOX: 7575 W. Jefferson Blvd.

### SWPPP CERTIFICATION

This Storm Water Pollution Prevention Plan (SWPPP) was prepared for OmniSource LLC's Elliott, Mississippi, location in accordance with best management practices and in accordance with the factors outlined in Title 40 Code of Federal Regulations 122.26 as appropriate. It has the full approval of management at a level of authority to commit the necessary resources to ensure full SWPPP implementation. This SWPPP will be implemented as described herein and will be reviewed and evaluated annually.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based upon my inquiry of the person or persons who manage the site, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Shane Swygart, Environmental Manager	Office: (260) 423-8522 Cell: (260) 849-9046

### **1.3.1 Yard Manager**

The Yard Manager has the responsibility and authority to accomplish the following actions:

- Coordinating the storm water team and develop BMPs, inspection procedures, staff training, and facility maintenance programs to ensure compliance with the SWPPP.
- Conducting inspections and maintain inspection logs to determine the need for changes to the SWPPP.
- Ensuring that required monitoring is performed and results documented.
- Reviewing monitoring results and initiate corrective action following adverse monitoring reports to ensure compliance with the SWPPP and appropriate regulatory requirements.
- Ensuring the SWPPP and other required reports are maintained, updated as necessary, and available for regulatory review.
- Conducting annual storm water team meetings to review the SWPPP, determine the need for modifications to the SWPPP, and evaluate the overall effectiveness of the SWPPP.
- Identifying resources required, provide training, and maintain training records.

Table 1-1 Permitted Storm Water Discharges					
Discharges Covered	Permit Tracking No.	Effective Permit Date	Permit Expiration Date	Permit Required Activities	Reporting Required

Jackson, Mississippi 39225

## 1.2 Storm Water Pollution Prevention Plan Requirements

In general, this SWPPP follows the regulatory requirements for SWPPPs outlined in 40 CFR 122.26, U.S. EPA Multi-Sector General Permit (MSGP) for storm water discharges associated with industrial activity (U.S. EPA MSGP 2015) and MSR00. The SWPPP discusses the facility's conformance to the applicable regulatory requirements of that section. In general, the federal regulations are cited at the beginning of each appropriate section. If the state regulations are more stringent, they are discussed in the applicable section.

## 1.3 Pollution Prevention Team

**U.S. EPA MSGP 2015 5.2.1: Storm Water Pollution Prevention Team.** You must identify the staff members (by name or title) that comprise the facility's storm water pollution prevention team as well as their individual responsibilities. Your storm water pollution prevention team is responsible overseeing development of the SWPPP, any modifications to it, and for implementing and maintaining control measures and taking corrective actions where required. Each member of the storm water pollution prevention team must have ready access to either an electronic or paper copy of applicable portions of the permit, the most updated copy of your SWPPP, and other relevant documents or information that must be kept with the SWPPP.

The SWPP Team identifies potential pollutants and spill sources and develops environmental incident reporting procedures. The Team develops and coordinates spill prevention and response procedures and provides prompt notices to appropriate agencies and environmental contractors. The Team develops storm water pollution prevention, inspection, and record keeping procedures; reviews environmental occurrences to evaluate the need for modifications to the SWPPP; and implements subsequent amendments to the SWPPP.
