LARGE CONSTRUCTION NOTICE OF INTENT (LCNOI) FOR COVERAGE UNDER THE LARGE CONSTRUCTION STORM WATER GENERAL NPDES PERMIT

INSTRUCTIONS

The Large Construction Notice of Intent (LCNOI) is for coverage under the Large Construction General Permit for land disturbing activities of five (5) acres or greater; or for land disturbing activities, which are part of a larger common plan of development or sale that are initially less than five (5) acres but will ultimately disturb five (5) or more acres. Applicant must be the owner or operator. For construction activities, the operator is typically the prime contractor. The owner(s) of the property and the prime contractor associated with regulated construction activity on the property have joint and severable responsibility for compliance with the Large Construction Storm Water General Permit MSR10.

If the company seeking coverage is a corporation, a limited liability company, a partnership, or a business trust, attach proof of its registration with the Mississippi Secretary of State and/or its Certificate of Good Standing. This registration or Certificate of Good Standing must be dated within twelve (12) months of the date of the submittal of this coverage form. Coverage will be issued in the company name as it is registered with the Mississippi Secretary of State.

Completed LCNOIs should be filed at least thirty (30) days prior to the commencement of construction. Discharge of storm water from large construction activities without written notification of coverage is a violation of state law.

Submittals with this LCNOI must include:

- A site-specific Storm Water Pollution Prevention Plan (SWPPP) developed in accordance with ACT5 of the General Permit
- A detailed site-specific scaled drawing showing the property layout and the features outlined in ACT5 of the General Permit
- A United States Geological Survey (USGS) quadrangle map or photocopy, extending at least one-half mile beyond the facility property boundaries with the site location and outfalls outlined or highlighted. The name of the quadrangle map must be shown on all copies. Quadrangle maps can be obtained from the MDEQ, Office of Geology at 601-961-5523.

Additional submittals may include the following, if applicable:

- Appropriate Section 404 documentation from U.S. Army Corps of Engineers
- Appropriate documentation concerning future disposal of sanitary sewage and sewage collection system construction
- Appropriate documentation from the MDEQ Office of Land & Water concerning dam construction and low flow requirements
- Approval from County Utility Authority in Hancock, Harrison, Jackson, Pearl River and Stone Counties

ALL QUESTIONS MUST BE ANSWERED (Answer "NA" if the question is not applicable)

**RE: Plant Daniel – Ash Pond Clean Closure Project
Mississippi Power
Large Construction Storm Water Notice of Intent**

Dear Chief:

Please find the enclosed Large Construction Storm Water Notice of Intent (LCNOI) and Construction Storm Water Pollution Prevention Plan (SWPPP) for the proposed project in Jackson County, MS. Once all water, coal ash, and liner are removed, the project will consist of the backfill with new sub-liner clean base soil, and installation of new liner. The project officially begins when all ash-contact water and material has been removed. The stormwater will then be collected and pumped to Detention Pond B (Lake Langdale). The final basin(s) will be utilized as low-volume waste water storage.

Project details are included within the LCNOI and supported by the existing Plant Daniel SWPPP (recently renewed) to cover all proposed construction activities. The project is integrated into the overall SWPPP for Plant Daniel. There is no direct release potential meaning any release would go through several other stormwater controls before any potential discharge into Gray Bayou.

If you have any questions or need additional information regarding this request, please contact Patrick Chubb at (228) 897-6438, pachubb@southernco.com.

Sincerely,

P.A. "Tony" Smith
