Enclosed is a Certificate of Permit Coverage granted under the State of Mississippi’s Large Construction Storm Water General NPDES Permit (enclosed). The submitted Storm Water Pollution Prevention Plan (SWPPP) appears to meet permit requirements and will be further reviewed during compliance inspections. You or your contractor must be in compliance with the SWPPP upon commencement of land disturbing activity. Please be aware this coverage only allows for the clearing and grubbing of the site. A modification to this coverage will be necessary for future construction activity. At the time of this approval, wastewater collection is unknown and the Department cannot evaluate if a suitable wastewater treatment option is available at this location. The facility may begin construction as outlined in the Notice of Intent and SWPPP at the facility’s own risk and proper wastewater treatment is required.

This permit coverage is issued in accordance with the provisions of the Mississippi Air and Water Pollution Control Law (Sections 49-17-1, et seq., Mississippi code of 1972), and the regulations and standards adopted and promulgated thereunder and under the authority granted to the Mississippi Environmental Quality Permit Board pursuant to Section 402(b) of the Federal Water Pollution Control Act. Any appeal of this action must be made within the 30-day period provided for in Section 49-17-29(4)(b) Mississippi code of 1972.

Sincerely,

Krystal Rudolph, P.E., BCEE
Environmental Permits Division
