Manufacturer Name: ____________________________  Model Number: ____________________________
Capacity (tons/hour): ____________________________  Fuel Type: ____________________________

IV. CERTIFICATION

Note: This NOI shall be signed according to Conditions T-17 and T-18 found in ACT 6 of the Dry Litter Poultry Animal Feeding Operations Multimedia General Pollution Control Permit No. MSG20.

- For a corporation, by a responsible corporate officer.
- For a partnership, by a general partner.
- For a sole proprietorship, by the proprietor.

I understand that my nutrient management plan identified Section II. D. expires five years from the date it was developed and that an updated nutrient management plan must be submitted to MDEQ prior to its expiration date.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

I further certify that the project continues as described in the original notice of intent. Also, I certify that I understand when coverage is terminated I am no longer authorized to operate activities identified under this general permit and to do so without proper permit coverage is in violation of state law.

Re: Request for Assistance- Agricultural Waste Management Plan

To Whom It May Concern:

The Natural Resource Conservation Service has received a request from you for your farm located in The Scott and Newton County Work Team to assist in the development of an Agricultural Waste Management Plan for their poultry operation. Our agency prides itself on providing timely assistance to its customers. We intend to assist in the development of the requested waste management plan for this producer to comply with all local, state, and federal regulations. However, at the present time our office is collecting all pertinent data associated with the operation requesting assistance, as well as evaluating applications for NRCS cost share assistance programs.

Currently we are also assisting producers who request technical assistance in completing the Notice of Intent to continue operating their confined animal feeding operations.

We pledge to devote our full attention to producers in the development on their nutrient management plans and thank you for your request for technical and/or financial assistance via Mississippi USDA/ NRCS. We look forward to working with you to conserve our nation’s precious natural resources.

Thanks,

Joseph M. Addy
District Conservationist
