- ☐ I am requesting termination of coverage for incineration requirements only. All incinerators located at the above permitted property have either been removed from said property or have been dismantled.
- ☒ I am requesting termination of coverage for the entire farming operation. All animals and animal waste have been removed from the property and if incinerators were located on the property then all incinerators have either been removed from said property or have been dismantled. A Closure Plan, indicating how closure will occur so that no potential environmental hazard to waters of the State will be presented, must be submitted to MDEQ in accordance with Condition S-6 found in ACT 8 of the CAFO General Permit.

CERTIFICATION:

Based upon inspection(s) of the permitted site which I or personnel under my direct supervision conducted, I certify under penalty of law that all animals and animal waste have been removed from the property and if incinerators were located on the property then all incinerators have either been removed from said property or have been dismantled. I understand that by submitting this notice of termination, that I am no longer authorized to operate a concentrated animal feeding operation nor incinerators for animal mortality. I also understand that the submittal of this notice of termination does not release me from liability for any violations of Mississippi's Concentrated Animal Feeding Operation Multimedia General Permit, the Clean Air Act, or the Clean Water Act. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

To Whom it May Concern at Mississippi DEQ,

Enclosed please find our Notice of Termination (NOT) of coverage under the Concentrated Animal Feeding Operation (CAFO) General Permit known as:

PAUL SHIRK SWINE FARM
Noxubee County, Mississippi
CAFO Coverage No. MSG220024.

Also enclosed is a copy of the letter mailed to DEQ dated June 23, 2020 stating our method of continued use of the storage pond (lagoon).

Please note that the removal of the CAFO barns and mortality composter from the premises has been completed. The area is in the process of being returned to pasture/hay use.

Since the storage pond is our only source of irrigation water for two systems on that farm, the lagoon has been converted to an irrigation water storage pond to use on our farm. To discontinue this storage pond would have a serious impact on our overall farming operation. Therefore, we will not be discontinuing the use of this holding/irrigation pond at this time, however, we will continue to manage, maintain and utilize the water storage pond for irrigation as in the past,

Thank you for your consideration.

Sincerely,

Paul Shirk
