**RE: LCN01, Proposed North Soil Borrow Area
Clearview Landfill
Lake, Scott County, Mississippi
AI ID: 1054**

Dear Mr. Cress:

On behalf of our client, Chambers Clearview Environmental Landfill, Inc. (CCELI), we provide the attached Large Construction Notice of Intent for Coverage Under the Large Construction Storm Water General NPDES Permit. This coverage is requested for an approximate 11.4 acre land disturbance associated with a soil borrow area. The proposed borrow area is situated adjacent to the existing Clearview Landfill (AI ID 1054). The landfill is permitted with Solid Waste Management Permit No. SW060201A0417 and Stormwater NPDES Permit No. MSS059374.

The Clearview North Borrow Area operation will be located on property that is owned by CCELI and adjacent to the currently permitted facility, but across a public unpaved road. The attached site plan illustrates the location of the permitted landfill and the borrow property. CCELI plans to obtain soils for operation of the landfill from the borrow property. CCELI anticipates utilizing soils from this borrow area for the remaining life of the facility in excess of ten years. The soils will not be sold commercially, and will be hauled less than 5 miles for utilization in the landfill. The public road that must be crossed is an unimproved dirt road owned by Scott County. CCELI will work with Scott County to develop a plan and agreement for traffic control and roadway protection.

We are providing a Large Construction NOI for coverage of the borrow property under MSR10 to begin soil borrow operations as soon as possible. We anticipate that MDEQ may request permit MSS059374 be modified to include the borrow area property, which can be done at a later date if needed.

Please find enclosed a completed LCN01 form, the facility SWPPP, and the Erosion and Sediment Control Plan for the borrow area property and other ancillary information as required by the NOI. We trust this information will be satisfactory for coverage under MSR10 until the NPDES permit can be modified, if needed.
