Re: Hydrostatic Notice of Intent
Gulf South Pipeline Company, LLC
PN 13685
Forrest County, Mississippi
Providence Project No. 196-585

To Whom It May Concern:

Gulf South Pipeline Company, LLC is submitting this Hydrostatic Notice of Intent (HTNOI) requesting authorization for a discharge of hydrostatic test water from their 16-inch-diameter pipeline in Forrest County, Mississippi. The volume of water for the hydrostatic test will be approximately 13,000 gallons from an on-site water well and discharged onto their existing right-of-way (Outfall 001). All water will be discharged at a rate of approximately 500 gallons-per-minute into a haybale structure.

Please find attached a topographic map showing the discharge locations (**Figure 1**) and the HTNOI general permit forms and requisite supporting information (**Attachment A**). The Mississippi Secretary of State Certificate of Good Standing is included as **Attachment B**. The water use permit is included as **Attachment C**. If you have questions, please contact Kelsey Gocke at (713) 301-8360 or kelsey.gocke@bwpipelines.com or Yvonne Baker at (225) 766-7400 or yvonnebaker@providenceeng.com.

Sincerely,
Gulf South Pipeline Company, LLC

HYDROSTATIC TEST NOTICE OF INTENT

MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY

HYDROSTATIC TEST NOTICE OF INTENT (HTNOI)

FOR COVERAGE UNDER MISSISSIPPI'S HYDROSTATIC TEST GENERAL PERMIT GENERAL PERMIT MSG13 _____

(Number to be assigned by MDEQ)

INSTRUCTIONS

The Hydrostatic Test Notice of Intent (HTNOI) is for coverage under the Hydrostatic Test General Permit to discharge hydrostatic test water. Applicant must be the owner or operator. The coverage recipient is responsible for compliance with the conditions of the general permit.

Completed HTNOIs should be filed at least thirty (30) days prior to the commencement of regulated activity. Discharge of hydrostatic test water without written notification of coverage is a violation of state law.

If the company seeking coverage is a corporation, a limited liability company, a partnership, or a business trust, attach proof of its registration with the Mississippi Secretary of State and /or its Certificate of Good Standing. This registration or Certificate of Good Standing must be dated within twelve (12) months of the date of the submittal of this coverage form. Coverage will be issued in the company name as it is registered with the Mississippi Secretary of State.

IF REGULATED LAND DISTURBING ACTIVITIES ARE TO OCCUR, LIST ACRES DISTURBED: 0
NOTE: If disturbing five (5) acres or more, a stormwater construction coverage is required.

A USGS quadrangle map or copy is a required submittal. The map shall extend at least one-half of a mile beyond the facility/ project property boundary. In the case of linear pipeline projects the map shall extend at least one-half of a mile beyond the pipeline right-of-way. The site location and outfalls must be outlined and labeled. Quad maps can be obtained from the Office of Geology (601-961-5523). If a copy is submitted, provide the name of the quadrangle map that is found in upper right hand corner.

Additional submittals may include the following:

- Labeled site drawing noting the outfall(s) associated with hydrostatic test water discharge(s)
- List of chemical Additives,
- Appropriate Section 404 documentation from U.S. Army Corps of Engineers, or
- Written authorization from the MDEQ, Office of Land and Water, if water withdrawal from surface waters or ground waters is to be used for the testing. For information call the Office of Land and Water at 601/961-5202

ATTACHMENT C
WATER USE PERMIT

STATE OF MISSISSIPPI
TATE REEVES
GOVERNOR
MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY

Dear Landowner:

Enclosed you will find water-use permit(s) recently issued in your name by the State Permit Board. Please note that a copy of the enclosed permit(s) will also be sent to applicable applicant(s) or actual water user(s) if different from the landowner of record. The enclosed permit(s) supersede all previously issued permit(s) for the indicated diversion or withdrawal point(s).

In issuing the enclosed permit(s), the State Permit Board has authorized the holder to divert and/or withdraw the waters of the state for beneficial use from the specified source(s) only in the volume(s) and rate(s) stated. Unless otherwise indicated, permit(s) expire ten (10) years from the date of issuance or reissuance of previously existing permits.

If critical conditions should arise regarding the management and continued use of the permitted water resources (ref. Mississippi Code of 1972, as amended Section 51-3-1, et seq.), the Mississippi Department of Environmental Quality may require that you and other permittees reduce the permitted volume of water being diverted and/or withdrawn or cease pumping completely.

If you have any questions regarding your permit(s), applicable statutes or regulations, or the management of water resources in the state, please give me a call at (601) 961-5775.

Sincerely,

Chris Hawkins, P.E.
Chief, Permitting, Certification, and Compliance Division

PERMIT
TO DIVERT OR WITHDRAW FOR BENEFICIAL USE THE PUBLIC WATERS

This permit is issued to the landowner named below in accordance with the provisions of the Mississippi Water Laws, Mississippi Code Sections 51-3-1, et seq.(1972, as amended), and the regulations and standards as promulgated thereunder. Whether or not specifically named in this permit or in the applications for this permit, anyone using water from the diversion/withdrawal point described below shall do so in compliance with the provisions of this permit. Neither this permit, nor any authority conferred hereby, may be sold, conveyed, encumbered, assigned or otherwise aliened, for any period of time or under any conditions whatsoever. This permit may not be modified, transferred, or revoked without prior action by the Permit Board. Any attempts to modify, transfer or revoke this permit, or to take any other action on this permit, shall be invalid and unenforceable and may result in immediate revocation or suspension of this permit. The holder of this permit shall at all times be responsible for adherence to the terms and conditions of this permit. No agreement between the permit holder and any other party shall affect the obligations and liabilities of the permit holder. Water use under this permit is allowed only when the streamflow or lake level elevation (whichever, if any, is applicable) is above the established minimum, pursuant to Mississippi Code Section 51-3-7. Authorization is hereby granted to divert/withdraw water for the beneficial use designated herein, and for no other purpose, subject to the following terms, conditions, and limitations:

- Withdrawals from the above referenced Industrial wells shall be limited to a total maximum volume not to exceed 1.84 million gallons per day (mg/d) at a total maximum rate of 4,100 gallons per minute (gpm) or less at this facility. These wells may be pumped in any manner desired to obtain the maximum permitted volume.
- The use of the above referenced wells or any other source of water for once-through non-contact cooling water at this facility is strictly prohibited.
- The Permittee shall allow MDEQ staff access to these wells for water level measurements upon appropriate notification.
- The Permittee shall maintain water use records by recording the daily hours of well operation or reporting metered water use if a MDEQ approved flowmeter is installed. This information shall be made available to MDEQ by participating in the annual Water Use Survey.
- MDEQ maintains the right to place additional restrictions on the use of the referenced wells in the event the local availability of groundwater for priority beneficial uses, such as drinking water supplies, is determined to be adversely impacted.
