MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY

HYDROSTATIC TEST NOTICE OF INTENT (HTNOI)

FOR COVERAGE UNDER MISSISSIPPI'S HYDROSTATIC TEST

GENERAL PERMIT

GENERAL PERMIT MSG13 0357

(Number to be assigned by MDEQ)

INSTRUCTIONS

The Hydrostatic Test Notice of Intent (HTNOI) is for coverage under the Hydrostatic Test General Permit to discharge hydrostatic test water and storm water associated with land disturbing activities of one (1) acre or greater; or for land disturbing activities, which are part of a larger common plan of development or sale that are initially less than one (1) acre but will ultimately disturb one (1) or more acres. Applicant must be the owner or operator. The coverage recipient is responsible for compliance with the conditions of the general permit.

Completed HTNOIs should be filed at least thirty (30) days prior to the commencement of regulated activity. Discharge of hydrostatic test water or storm water from regulated construction activities without written notification of coverage is a violation of state law.

A USGS quadrangle map or copy is a required submittal. The map shall extend at least one-half of a mile beyond the facility/ project property boundary. In the case of linear pipeline projects the map shall extend at least one-half of a mile beyond the pipeline right-of-way. The site location and outfalls must be outlined and labeled. Quad maps can be obtained from the Office of Geology (601-961-5523). If a copy is submitted, provide the name of the quadrangle map that is found in upper right hand corner.

Additional submittals may include the following:

- A site-specific Storm Water Pollution Prevention Plan (SWPPP) developed in accordance with ACT8 of the General Permit, if the project includes regulated construction activity disturbing five (5) acres or more
- A description of proposed water treatment additives as outlined in ACT4, S-4 of the General Permit
- Appropriate Section 404 documentation from U.S. Army Corps of Engineers
- Written authorization from the MDEQ, Office of Land and Water, if water withdrawal from surface waters or ground waters is to be used for the testing. For information call the Office of Land and Water at 601/961-5202

ALL REQUESTED INFORMATION MUST BE PROVIDED (Answer "NA" if not applicable)

APPLICANT IS THE: OWNER OPERATOR (Must check one or both)

OWNER INFORMATION

OWNER CONTACT NAME & POSITION: Lane Tolar

OWNER COMPANY NAME: CITGO Petroleum Corporation

OWNER STREET (P.O. BOX): P.O. Box 4689

HYDROSTATIC TEST GENERAL PERMIT
COVERAGE NUMBER (MSG13 _____) COUNTY: Warren

NOTIFICATION OF SURFACE DISCHARGE OF HYDROSTATIC TEST WATER

INSTRUCTIONS

In accordance with ACT10, R-3 of the Hydrostatic Test General Permit, notification shall be submitted to MDEQ regarding the start date/time and anticipated duration of the surface discharge of hydrostatic test water from the subject project. Submittal of this notification form should be postmarked at least 15 days prior to the discharge start date to allow MDEQ, at its discretion, to schedule an observer to witness the discharge.

**RE: CITGO Petroleum Corporation
Petroleum Bulk Fuel Terminal
1585 Haining Road, Vicksburg, Warren County, Mississippi 39180
Notice of Intent for Discharge Coverage under State of Mississippi
Hydrostatic Test General Permit No. MSG13**

Dear Sir/Madam,

Attached please find the completed Hydrostatic Test Notice of Intent (HTNOI) and Notification of Surface Discharge of Hydrostatic Test Water for coverage under State of Mississippi Hydrostatic Test General Permit (Permit No. MSG13) for the CITGO Vicksburg Terminal for your review and consideration.

CITGO Petroleum Corporation (CITGO) owns and operates a petroleum bulk fuel terminal located at 1585 Haining Road, Vicksburg, Warren County, Mississippi. This facility will be conducting future hydrostatic testing on bulk storage tanks located within the terminal on an as needed basis generally due to periodic maintenance as required. As a result, information requested in the attached Notice of Intent forms, including the *Estimated Total Discharge (Mil Gal)* will vary due to testing frequency and tank volumes. An attached inventory of bulk tanks and contents located at the Vicksburg Bulk Petroleum Fuel Terminal is provided for your information.

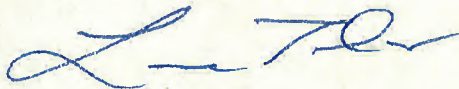

Further, two (2) outfalls have been included for coverage under this general permit; Outfalls 001 and 002, however, typical discharges are anticipated to flow via Outfall 002 only. Outfall 001 has been included for unanticipated situations requiring expedited area drainage, therefore, we have entered a '0' value for the *Estimated Total Discharge (Mil Gal)* on the attached Outfall Information form. The value entered for Outfall 002 of '5.04' is an estimated total using the volume of the current tank scheduled for testing, and assuming annual testing over a four (4) year period. Please note that discharges covered under this general permit will not be allowed to make contact with other discharges from the terminal.

The first hydrostatic test is scheduled for April 16, 2012, with discharges planned for April 18, 2012, pending coverage under this General Permit. Detailed information of this event is provided in the attached *Notification of Surface Discharge of Hydrostatic Test*
